Subject:	Brain-Based Learning, Professional Development

## Summary:

How the Brain Learns: A Multimedia Kit for Professional Development provides: The companion book, How the Brain Learns, Third Edition, a comprehensive look at how the student brain functions and processes information; a 50-minute, content-rich DVD that features David A. Sousa discussing current brain research and master teachers demonstrating brain-based strategies in primary, middle and high school classrooms with a navigation menu for easy stop-and-search control of the video content; and a step-by-step facilitator's guide that connects the core content of the book to the DVD and includes segment prompts, workshop outlines, extended workshop activities, key points and discussion questions.
