<b>Format:</b>	180 x 255; 134 pages
<b>Age Range:</b>	P-12
<b>Category:</b>	Professional Development
<b>Subject:</b>	Professional Development

## Summary:

Standards-based education poses a variety of challenges for assessment and reporting practices, especially for ensuring that the marks assigned to students are honest, meaningful and fair. Many traditional methods, such as limiting the number of high grades or defining "C" as "average", no longer work in a standards-based environment. This book examines critical issues in standards-based assessment and provides specific suggestions for improving grading policies and practices at the school and classroom levels. This groundbreaking volume:

- Describes traditional school practices that inhibit the implementation of standards-based assessment
- Examines legal issues that influence grading and reporting policies
- Discusses why report cards grades and large-scale assessment scores may vary
- Fosters consistency in assessment
- Offers effective strategies for communicating with parents

This solution-oriented book offers educators practical strategies for implementing assessment policies that benefit all students.
