**Format/Page No.:** B5, 192 pages  
**Year Level:** Teachers and Administrators  
**Focus Area:** Classroom Practice and Direct Instruction, Curriculum, Professional Development

**Key Learning Area:** Cross-Curricular

## Summary

Would you rather listen to a lecture or play classroom game shows? Research shows that the most successful learning happens when teachers talk less and engage their students in actively applying concepts. This book shows you how to enhance lessons with 95 research-based strategies that work for all subjects and year levels. In addition, the authors explain the research on student learning, describe best practices and provide tools for analysing your lessons. This step-by-step guide shows how to remodel lessons so they:

- align with the Australian Curriculum
- develop students' 21<sup>st</sup> century skills
- engage students
- enhance content learning.

The book's evidence-based Present-Apply-Review (PAR) model is highly effective for addressing shortfalls in student learning. Included are diagrams, examples, clear instructions for connecting lessons to the Australian Curriculum content descriptions and achievement standards, and a guide to sharing the strategies in a professional learning setting. Why teach tomorrow's adults with yesterday's lessons? Amplify your arsenal with storyboarding, Socratic role-play, wikis, peer huddles and more – and watch learning soar!
