Format/Page No.: B5, 160 pages
Year Level: Teachers and Administrators
Focus Area: Leadership, Professional Development, School Improvement
Key Learning Area: Cross-Curricular
Supplemental Resource: Download reproducible resources at go.hbe.com.au

Summary

Complex times call for clear solutions. If initiative overload and fragmentation are keeping your best plans from becoming reality, it's time to start leading differently. The key to bringing about the kind of successful and sustainable change you need is the Coherence Framework, a dynamic, customisable road map made up of four essential components:

- Focused direction to build collective purpose
- Cultivating collaborative cultures while clarifying individual and team roles
- Deepening learning to accelerate improvement and foster innovation
- Securing accountability from the inside out

This book provides school leaders and policy makers with a clear picture on the how and what of capacity building, looking at the concepts of 'right' and 'wrong' policy drivers to identify the policies/strategies that have low yield and which ones have high yield in order to get maximum results for student learning and achievement.

Coherence provides the insights and tools to drive effective leadership.
