**Summary:**

Enable all students to realise their greatest learning potential!

The biggest challenge a teacher can face is an uninspired student. In *Ten Best Teaching Practices*, Donna Walker Tileston provides the classroom teacher with a practical guide to inspiring, motivating and therefore educating even the most unenthusiastic students. This exciting book details the fundamentals of differentiated teaching strategies, teaching for long-term memory, collaborative learning, higher-order thinking skills, technology integration and much more. Instructors will learn to use ten highly practised teaching methods proven to facilitate learning in all students. Tileston incorporates brain research, learning styles information and the issues of standards into a highly effective classroom instructional model. Once you implement these tried-and-true practices, you may wonder how you ever got along without them!

*Ten Best Teaching Practices, Second Edition* includes:

- detailed analysis of how the brain absorbs learning.
- mentoring guidelines that will help even the most challenged students.
- helpful graphics illustrating the essential points of these practices.

**Key selling points:**

- Includes examples illustrating how each teaching practice can be employed in a practical environment.
- Outlines tips on how to encourage students to incorporate self-motivation in their own learning through personal goals.
- Addresses the need to bridge the gap between all learners, regardless of their backgrounds.

**Supporting resources:**

- *12 Brain/Mind Learning Principles in Action* (CO4387)
- *A Biological Brain in a Cultural Classroom* (CO4328)
- *How to Explain a Brain* (CO4310)
- *Differentiation through Learning Styles and Memory* (CO4417)
