| Age Range: | Early Childhood |
| Category: | Classroom Practice, Learning Styles, Emotional Intelligence |
| Subject: | Special Education |

Key Selling Points:

- Engage children and address standards in early childhood
- Develop children's curiosity
- Full of lively, creative ideas

Summary:

Play, Projects and Preschool Standards provides teachers with plenty of lively, creative ideas to develop children's genuine curiosity while building the skills they'll need to succeed in prep and beyond. In inviting, informal language, the authors walk readers through the creation of well-planned projects and activities that both capture children's interest and enhance social and pre-academic development. Each chapter offers: "What Research and the Experts Say" snapshots, and applications of the research in practice; "Try This" activity ideas that engage children and meet standards; and suggestions for tailoring activities to meet the needs of bilingual children and children with special needs. This timely book is sure to give teachers the confidence and competence they need to connect the experiences that make preschool so enjoyable with the skill development that makes preschool so necessary.
