### Key Selling Points:

- Research-based classroom tested activities to nurture students with diverse abilities
- Contains activities across the curriculum that specifically meet identified mandated standards
- Fun and engaging projects utilising and strengthening your students' best asset – their brains!

### Summary:

Expert educator Toby Karten helps teachers meet the challenge of inclusion by providing the tools they need to teach identical standards to students with diverse abilities. Karten translates core strategies into classroom-tested activities that can be modified for students at any skill or ability level. Perfect for both general and special education teachers, this practical volume includes: strategies for deciphering difficult words and figurative language; a step-by-step guide through the writing process; planners and graphic organisers; meaningful, real-life maths connections through authentic tasks; and self- and peer-assessment tools. Packed with creative, step-by-step activities, this essential resource helps teachers instruct students of differing abilities, learning styles and intelligences while meeting national standards.
