Digital Storytelling in the Classroom: New Media Pathways to Literacy, Learning and Creativity

Author: Jason Ohler

Date Available:	26 October 2007
ISBN:	1 74170 522 3
Code:	CO5223
RRP:	\$55.95
Format:	A4, 248 pp
Age Range:	P-12, Professional Development
Category:	Information Technology
Subject:	Technology

Key Selling Points:

- Provides a practical road map to exploring the digital frontier
- Excellent form integrating learning, literacy and new media
- Harness the tools of digital technology to teach students to be powerful storytellers

Summary:

This practical resource links digital storytelling to improving traditional, digital and media literacy and effectively demonstrates the process for integrating digital storytelling with instruction. Ideal for both technologically experienced and novice educators, the text provides maps, helpful hints, important copyright and fair use information and ways to: combine curriculum content and storytelling; help students create digital stories based on principles of storytelling, technology application and media technique; and blend traditional literacies such as reading, writing, speaking and art within the context of digital storytelling.
