Age Range:	Years P-12
Category:	Thinking Skills
Subject:	Professional Development

Key Selling Points:

- Help students develop refine and extend their thinking capabilities
- Challenge students to creatively approach complex and unfamiliar material
- Use these strategies to develop thinking skills in all subject areas

Summary:

Drawing upon past and recent research, the authors discuss the importance of actively engaging all students-including those with a history of low achievement-in higher levels of thinking. Thirty specific strategies, including K-W-L, Read and Think Maths, and Reciprocal Teaching, can be readily integrated into daily lesson plans. This step-by-step guide shows teachers how to help students develop, refine and extend their thinking capacities. With its user-friendly, practical approach, this important resource should be in the hands of every educator!
