<b>Age Range:</b>	Years P–12
<b>Category:</b>	Professional development
<b>Subject:</b>	Maths

## Summary:

A Guide to Mathematics Leadership presents a process-based approach to improving mathematics instruction based on five principles identified by the National Council of Teachers of Mathematics (NCTM) – equity, curriculum, teaching, learning and assessment – and four leadership principles from the National Council of Supervisors of Mathematics (NCSM) – equity leadership, teaching and learning leadership, curriculum leadership, and assessment leadership. These principles are applied during the program improvement cycle. Filled with practical advice, tips, tools and resources for each stage of the process, this book guides readers in the next steps to excellence in mathematics instruction and learning.
