RRP:	\$37.95
Format:	180x255, 154 pages
Age Range:	Years P–12
Category:	Professional Development
Subject:	Student Outcomes

Summary:

A successful school is one in which the learning of educators is as highly valued as the learning of students. PD nurtures and encourages such growth, maximising educators' professional effectiveness. This comprehensive resource identifies five major contemporary PD models that can be implemented and tailored to meet the diverse needs of any school. With emphasis on the essential connection to student outcomes, this volume provides an in-depth analysis of each approach, plus concrete guidelines for effective implementation and program evaluation. Based on the belief that all models can succeed if properly implemented. Staff developers, principals and other education leaders will find Models of PD a valuable and insightful road map for successfully navigating the field of PD and growth.
