Summary:

Teaching behaviours and personalities can affect student achievement; teachers who develop their emotional awareness and interpersonal skills are better able to manage their classrooms and promote student success. Based on five components of emotional intelligence, this self-therapy guide shows how self-awareness, self-regulation, motivation, social awareness and relationship management can help teachers increase their effectiveness in the classroom. The authors provide research, case studies, and essential tools to help teachers. *Becoming an Emotionally Intelligent Teacher* includes practical activities and exercises that are perfect for enhancing your emotional intelligence on your own, or as part of a professional development opportunity.
