ISBN:	1 74170 567 3
Code:	CO5673
RRP:	\$49.95
Format:	A4, 186 pp
Age Range:	Middle Years, 5-9
Category:	Maths
Subject:	Maths

Key Selling Points:

Summary:

Brain-Compatible Mathematics, Second Edition bridges the findings from the realms of brain research and improved mathematics instruction through updated teaching samples, connections to the most recent research findings and integration to other content areas.

Diane Ronis presents teachers and maths leaders with an emphasis on thinking, mathematical representation and construction of ideas through an abundance of sample lessons and brain-friendly strategies for maths teaching.

By integrating maths learning into real-world applications, students can actively practise what they learn, make meaning out of their everyday experiences and think mathematically for success within today's information age.
