Summary:
Designed for novices and experienced users, this comprehensive guide includes all the need-to-know aspects of using the World Wide Web to support student learning. Making the Most of the Web in Your Classroom covers the language of the Web, describes Web-editing software, and shows how to use Web tools that offer unique learning opportunities for students.

This book examines issues of student safety, appropriate "netiquette," and copyright and other legal considerations and provides field-tested strategies, examples, and reproducibles to help teachers create powerful learning opportunities. Discover how to design and build Web sites, help students develop their own Internet projects, and evaluate and manage Web projects. Featuring a list of key terms in each chapter, this timely resource will motivate your students and help make technology a seamless part of your classroom instruction.
