<b>Subject:</b>	Maths

### Key Selling Points:

#### Summary:

Now there is a way to differentiate maths instruction and engage all students, not just those who excel in mathematics. This book presents a broad collection of tools for mathematics instruction that promote active, in-depth learning to help all students meet high standards. Organised around four distinct learning styles — mastery, understanding, self-expressive and interpersonal — this invaluable resource:

- \* Shows what the four learning styles look like in the mathematics classroom
- \* Features 64 instructional tools and explains how to use them to support different types of learners
- \* Offers guidelines for designing lessons, assessments and units
- \* Provides numerous examples showing how to use the tools with any maths curriculum

Maths Tools, Years 3–12 allows teachers and maths specialists to pick and choose from classroom-tested tools and practical techniques to differentiate maths instruction and help all students excel.
