Summary

There is an urgent need for school leaders to go beyond “top-down” supervision and coach educators to succeed. Use this comprehensive resource to design and implement an effective, school-wide coaching system that yields powerful results. Aligned with the International Coach Federation’s Professional Coaching Core Competencies, this revised edition demystifies the coaching process and includes:

- recent research projects, award-winning success stories and trends in the field
- guidance for school leaders on developing, designing and implementing a successful coaching program
- graphic organisers and practical examples of coaching dialogue
- evaluation tools for coach development

This revised edition is intended to expand the audience from administrators to principals and school office leaders, who can also be required to observe teaching staff on a more systematic, frequent schedule. *Leadership Coaching for Educators* is best used as a learning and planning guide and a discussion and resource tool. It is not intended to be used as a training manual, but provides a knowledge base, awareness of necessary skills and a handful of helpful tools that coaches use, as well as tips for implementing coaching.
