Summary:

This resource draws on the latest research in brain-based learning, differentiated instruction, multiple intelligences, and adult learning to provide strategies that not only motivate adult learners but also increase understanding and long-term retention. Author Marcia Tate defines each strategy, explains its theoretical framework in easy-to-understand language, provides multiple professional learning activities that staff developers can incorporate immediately, and includes a guided reflection and application section. Designed for easy implementation, this practical handbook includes more than 150 professional learning activities. This indispensable staff development resource is suitable for anyone who teaches adults, including staff developers, trainers, principals, teacher leaders, and educational consultants.
