### Summary:

Not all educators feel comfortable teaching maths, yet it is critical for all students to gain a solid foundation of mathematical understanding in years P–8. This resource helps educators gain the confidence they need to teach maths in creative and engaging ways. Teaching Essential Mathematics, Years P–8 provides teachers with an overview of the key mathematics concepts students need to acquire and includes hands-on activities and clear examples to help students learn these concepts in depth. The classroom-ready activities and calculator exercises are organised according to the mathematical content standards, and each activity is directly aligned with sample primary and middle years content standards for each state or territory.
