<b>Format:</b>	A4, 216 pp
<b>Age Range:</b>	Years P–12
<b>Category:</b>	Leadership and Learning
<b>Subject:</b>	Professional Development

## Key Selling Points:

- ⊙ Discover how to implement learner-centred, quality teaching strategies
- ⊙ Learn how to instill a culture of deep understanding
- ⊙ Extend learning from academic thinking to real-world application

## Summary:

The authors have drawn from the most up-to-date research to help teachers, curriculum developers and school leaders discover how to implement and promote learner-centred, quality teaching strategies that encourage students' understanding. Organised into five parts, this text systematically uncovers how to advance student learning using leading-edge research on powerful forms of instruction; foster metacognition in students and encourage them to take control of their own learning; extend learning from academic thinking to real-world application across all disciplines; and learn how to instill a culture of deep understanding among students while still meeting specific achievement standards found in most state and territory curricula.
