Key Selling Points:

- Transform the way you teach with 20 instructional strategies that will engage the brains of your students!
- Discover a new way of thinking about classroom practices.

Summary:

Discover 20 strategies that will enable you to revolutionise your instructional practices and put the fun back into teaching!

Turn traditional classroom practises upside down by encouraging your students to become actively involved in lessons. Get them to move, engage them in a variety of educational games, tell them stories and use the many other strategies you will find in this outstanding classroom resource! Use graphic organisers, semantic maps and word webs to inspire students' brains. Discover the power of humour, mnemonic devices and analogies in helping students to master challenging concepts in all areas of the curriculum. Learn how to make your classroom come alive with active learning techniques!
