The Developing Brain:

Birth to Age Eight

Authors: Marilee Sprenger

Date Available:	15 July 2008
ISBN:	1 74170 642 4
Code:	CO6424
RRP:	\$50.00
Format:	A4, 137 pages
Age Range:	Early Childhood; Parents; Professional Development
Category:	Professional Development
Subject:	Professional Development

Summary:

How can early childhood teachers and parents translate discoveries on early brain development into strategies that nurture cognitive growth? Synthesising information from neuroscience, cognitive psychology and child development, The Developing Brain offers brain-compatible teaching practices that are linked to principles for working with young children. It includes comprehensive background information on brain development from birth, incorporating scenarios and snapshots of each year from three to eight. Clear developmental checklists and brain-based activities foster an understanding of the phases of language, motor and social development at each age, enhancing growth and fostering an enduring love of learning.
