Summary:

Michael Barber, former chief advisor on delivery to British Prime Minister Tony Blair, and his colleagues Andy Moffit and Paul Kihn thoroughly describe Barber's proven reform delivery processes in this practical field guide. The timing is ideal, as Barack Obama's administration prioritises education reform. Citing education reform case studies from more than 20 countries, the authors assert that most previous reforms were unsuccessful due to failed implementation. The authors illustrate a field-tested program that ensures reform is achieved in the most profound sense, with students able to see, feel and reap the benefits of a high-quality education. This book focuses on how to accomplish meaningful results, including:

- Significant and ongoing education reform
- Excellence and equity across public education
- Students who are prepared to lead in the future
