**Topic:** Leadership, PLC  
**Learning Area:** Cross-curricular  
**Supplemental Resource:** Download reproducible resources at [go.hbe.com.au](http://go.hbe.com.au)

## Summary:

Now that federal and state initiatives require school districts to provide job-embedded professional development, the next step is making it happen. *Inquiry: A Districtwide Approach to Staff and Student Learning* helps districts define, develop, and implement a systematic inquiry-based process with a laser-like focus on both adult and student learning. The book's inquiry model challenges educators and students to

- define questions they are passionate about exploring,
- collect and analyse data to inform their questions,
- share what they have learned through the process with others, and
- collaborate to build on their results and improve student achievement.

The authors' award-winning school improvement program, featured in the text, offers a fresh look at how to improve the quality of teaching and learning across a district. Administrators, teachers and students will find an invaluable road map for tackling real-world challenges and taking control of their own learning.
