Code:	CO8402
RRP:	\$49.95
Format:	A4, 224 pages
Age Group:	Professional Development
Learning Area:	Cross-curricular
Category:	Assessment

Summary:

In this new edition of her best-selling, comprehensive guide, internationally recognised assessment expert Kay Burke provides educators with a six-step process that makes it easier than ever to link teaching and assessment to your own relevant standards.

Covering summative, formative and differentiated assessments, this guide features templates for each step of the process – sample tasks, rubrics and units. *From Standards to Rubrics in Six Steps* has been updated to help teachers create more complex performance tasks, work in year-level or vertical teams, and understand assessment for testing scenarios that involve technology. Burke shows you how to:

- Apply the six-step process using the book's theory, examples, applications and explanations
- Build your own tasks, checklists and rubrics
- Differentiate for special needs within standards-linked tasks
- Provide good feedback and share check lists and rubrics with students for ongoing formative assessment and self-assessment.

Using these tools, teachers can measure student understanding in a meaningful way, track student progress towards meeting your standards and increase the academic performance of all students!
