## Summary:

Many teachers ask: "What do I do for students who finish their work before everyone else? Is there anything I can use that doesn't require me to read a long textbook with complicated instructions?" If you would like to do more gifted students and need simple strategies that you can use tomorrow, this book is for you. Inside are helpful methods for challenging students who need more than the regular curriculum can provide. Readers will find practical tools, including:

- Tips for using existing resources and potential
- A progression from simpler to more complex adjustments for advanced learners
- Specific lessons for English, maths, science, social studies and the arts

The authors' strategies can be tailored to benefit students of varying abilities. The lessons are easy to integrate, consistent with curriculum standards, and described in practical terms. You will also find ready-to-use reproducibles, helpful vignettes and additional resources for differentiating instruction so that all students are challenged to reach their potential.

## Supporting Resources:
