Subject:	Gifted Education

Summary:

How can I motivate my gifted students using the resources I already have? How can I stimulate their imaginations to further their learning? *Igniting Creativity in Gifted Learners, P-6*, is packed with practical activities that allow students to bring their insights, observations, imaginations and experiences to the classroom. This book helps primary teachers use creative methods to enhance gifted students' learning and stimulate higher-level thinking, discovery and invention. Ready-to-use strategies, activities, and examples help teachers inspire students and encourage them to explore new avenues for thinking and learning. These methods and activities help make creativity a vital ingredient in classroom instruction and the learning process.

Supporting Resources:

- Acceleration for Gifted Learners P-5 (CO5177)
- Differentiating for the Young Child, Teaching Strategies Across the Content Areas (Prep-3) (CO2429)
- How the Gifted Brain Learns (CO0728)
- Identifying & Enhancing the Strengths of Gifted Learners, P-8 (CO5169)
