Summary:

In today's highly diverse classrooms, differentiated instruction enables teachers to plan strategically so they can meet the individual needs of all their students. Now this unique resource makes the challenge of reaching all learners easier by providing teachers with a wide array of practical activities for the differentiated classroom.

The *Activities for the Differentiated Classroom* series is based on activities from the updated and expanded *Differentiated Instructional Strategies: One Size Doesn't Fit All*, also by Gayle Gregory and Carolyn Chapman and included in this package. Books 1 to 6, for specific year levels from prep to Year 6, incorporate chapters on English, Maths, Science, Physical Education, Arts, Music and Humanities, and there are three separate books on Maths, Science and English, specifically for the middle years. Each book contains ready-to-use tasks and activities that can be immediately incorporated into lesson plans, and each activity features objectives, materials lists and helpful tips on conducting the activity.

This series of activity books, as well as *Differentiated Instructional Strategies*, feature many practical techniques and processes teachers can use to adjust learning based on individual students' knowledge, skills, experience, preferences and needs. Featuring Centres, Projects, Choice Boards, Problem-Based Learning, Inquiry Models, Cooperative Learning and Contracts, this series comes complete with explanations and examples. Planning models, templates, matrixes, rubrics, graphic organisers, checklists and questionnaires are also included, to help teachers make the right decisions about instruction and assessment on an individual basis. This teacher-friendly guide is sure to be an important resource for any teacher, new or experienced, who wants to help every student in the classroom learn and succeed.
