<b>Format/Page No.:</b>	B5, 292 pages
<b>Year Level:</b>	Teachers and Administrators
<b>Focus Area:</b>	Professional Development
<b>Key Learning Area:</b>	Cross-Curricular

## Summary

Packed with practical strategies, *Making Every Lesson Count* bridges the gap between research findings and classroom practice. Shaun Allison and Andy Tharby examine the evidence behind what makes great teaching and explore how to implement this in the classroom to make a difference to learning. They distil teaching and learning down into six core principles –

1. Challenge,
2. Explanation,
3. Modelling,
4. Practice,
5. Feedback, and
6. Questioning

– and show how these can inspire an ethos of excellence and growth, not only in individual classrooms but across a whole school too.

Combining robust evidence from a range of fields with the practical wisdom of experienced, effective classroom teachers, the book is a complete toolkit of strategies that teachers can use every lesson to make that lesson count. There are no gimmicky ideas here – just high impact, focused teaching that results in great learning, every lesson, every day.
