Format/Page No.:	B5, 192 pages
Year Level:	Teachers and Administrators
Focus Area:	Classroom Practice and Direct Instruction, Leadership, Professional Development
Key Learning Area:	Cross-Curricular

Summary

This book is all about how to be an outstanding teacher and how to engage your learners.

In an era when responsibility for exam results lies with the teacher and not their students it's time to redress the balance so that students take more of the responsibility for their learning. A class can be skilled and motivated to learn without a teacher always having to lead. Engaging learners in this way unpicks intrinsic motivation, the foundation that underpins a productive learning environment, and helps to develop independent learning.

Written in a humorous, thought-provoking style with which Andy and Mark both teach and train, *Engaging Learners* aims to challenge all who teach, from beginners to seasoned professionals, to reflect on their day-to-day practice and to set an agenda for sustainable improvement.
