Chip Off the Old Block

Student Data and Response Book

Set of 5

Date Available:	19 February 2010
ISBN:	978 1 74239 528 9
Code:	CUR5289
RRP:	\$29.95
Format:	5 books, A4, 98 pages
Age Range:	Years 5–8
Category:	Science
Subject:	Biotechnology

Summary:

In this biotechnology module, students explore basic concepts of cell structure, cell reproduction (mitosis and meiosis), and genetics, including DNA. Concepts of genetic engineering, including recombinant DNA, gene therapy, genetically-engineered plants and the Human Genome Project are included. Students demonstrate their understanding of these concepts by designing a hypothetical baby, deciding genetic characteristics and determining how they would manifest in a real person. See also Chip Off the Old Block: Teacher's Guide with CD (CUR5265), Chip Off the Old Block: Student Curriculum Module (Set of 5) (CUR5272) and Chip Off the Old Block: Complete Set (CUR5260).
