## Summary:

*Evaluating Assessment Quality: Hands-On Practice* gives viewers an overview of standards of classroom assessment quality. It commutes these standards into checklists of key features to look for in an assessment to evaluate its quality, transforming these features into rubrics for the standards that any teacher can learn to apply to assessment, and provides hands-on practice in the application of the checklists and rubrics so teachers can learn to evaluate their assessments. This workshop presentation is aligned to lessons in the book *Classroom Assessment for Student Learning: Doing It Right – Doing It Well*.
