## Summary:

Performance assessment is more than just collecting information on student progress. If designed and used well, a performance assessment can also increase the learning it assesses. This resource clearly identifies the elements needed in both performance tasks and rubrics to ensure accurate results and facilitate effective use. *Designing Performance Assessments for Learning* includes a User's Guide on CD with 21 sample tasks and 13 rubrics handouts, and is aligned to the lessons in the book *Classroom Assessment for Student Learning: Doing It Right – Using It Well*.
