Each of the twelve sections of the Study Guide focuses on one or two chapters of the book and is organised into five parts, with the acronym **USE IT** in mind, as follows:

- Understanding Key Concepts, which summarise the key points for each chapter in the book;
- Selecting Questions for Discussion, which can be used within the classroom/workshop setting;
- Eliciting Journal Responses, which is a prompt for journal writing, based on the specific contents of the chapters;
- Interacting With Others, which offers ideas for activities to use with participants; and
- Taking it Back, which helps participants understand the contents of the book and to more importantly use the information in their own classrooms.
