Summary:

This book describes the beliefs, behaviours, attitudes and interactions that form the fabric of life in our best classrooms and schools.

Readers of author Todd Whitaker's best-selling *What Great Principals Do Differently* asked him for a companion volume focusing on great teachers and their classrooms. This book is his response to those requests.

What Great Teachers Do Differently focuses on the specific things that great teachers do ... and that others do not. It answers these essential questions: Is it high expectations for students that matter? How do great teachers respond when students misbehave? Do great teachers filter differently than their peers? How do the best teachers approach standardised testing? How can your teachers gain the same advantages?
