Age Group: P–12, Professional Development
Topic: Behaviour Management, Health & Wellbeing, Leadership
Learning Area: Cross-curricular

Summary:

While parents can have concerns about the possible effects if bullying on their children, many indicate they are unsure of what they can do to help their children to prevent or respond effectively to bullying, especially cyberbullying.

This book provides families with information and ideas to help them talk to with their children about bullying, including cyberbullying behaviour, and to help their children build effective social skills. The actions suggested in this book are consistent with the *Friendly Schools PLUS* learning provided to students at school to reduce bullying behaviour. Topics addressed in this booklet include:

- Family-school partnerships;
- Communicating with your children;
- Understanding bullying: Cyber and face-to-face bullying;
- How to approach your children's school;
- Bystanders taking action; and
- Social and emotional learning.
