| Age range:      | primary P-6, middle years 5-9 |
| Category:       | english, thinking skills      |

### Summary:

*A to Z Thinking Warm-ups* provides teachers with fun, fast and easy-to-use alphabet activities that will engage and motivate students of all levels. The activities can easily be extended to develop creative and critical thinking skills, and incorporate Multiple Intelligences. They can be used individually or in pairs, groups or as a whole class to encourage collaborative and cooperative learning.

*A to Z Thinking Warm-ups* consists of two sections:

Alphabet lists; developed from Tony Ryan's 'Thinking Keys', for which students must list an item relating to that theme for each letter of the alphabet.

Alphabet quizzes; lists of vocabulary questions in which each answer begins with a particular letter of the alphabet.

Each section also contains a list of suggested extension activities, in which students engage higher order thinking skills to use the lists they've made, or the new vocabulary they've learned, in creative and educationally beneficial ways.

### Key selling points:

- Great resource for theme-based activities.
- Includes a teacher CD-ROM featuring all the worksheets in the book without the word bank answers, to make them more challenging.
- Activities encourage collaborative effort and cooperation between students.

### Supporting resources:

- *Thinking Start-ups (MMA2032)*
- *OPQ: Offbeat Adventures with the Alphabet (4497)*
- *Creative & Critical Thinking (IFA23305)*
- *T is for Think (HB06824)*
