Code: HB5104
RRP: \$15.95 (set of 5)
Format: 180 x 255mm
Age Range: P-12
Category: Professional Development
Subject: Gifted, Thinking

Summary:

This innovative Multiple Intelligences test is drawn from Ralph Pirozzo's (2007) *Improving Thinking in the Classroom*. The test has been expanded to include different activities that appeal to young people, thus enabling your students to have fun while discovering their own Cluster of Multiple Intelligences. The test uses a Venn Diagram in which students determine their individual RAMP (Ralph's Area of Maximum Potential). RAMP enables students to do their best work while using their three most preferred intelligences simultaneously, and teachers to provide for their students' preferred learning styles.
