RRP: \$34.95 (Set of 5)
Format/Page No.: A4, 40 pages
Year Level: Year 3
Focus Area: Health and Wellbeing
Key Learning Area: Health and Physical Education

Summary

Weaving Well-Being is a research-based mental health program that aims to enhance well-being in children aged 7–12. Each book in this series introduces students to age-appropriate concepts and skills drawn from the field of Positive Psychology, the science of well-being.

A growing body of research has shown that experiencing small moments of positive emotion every day is more important to an individual's well-being than experience more intense moments less frequently. The ten lessons in the Positive Emotions program are designed to help Year 3 students to identify and cultivate positive emotions using five specific strategies. Each strategy is presented as an ingredient in the child's "Positive Emotion Potion", which can then be used as a daily resource for maintaining their well-being.

This Student Book allows children to reflect on the lessons found in the accompanying Teacher Book as they gradually build a highly personal portfolio of work.

Weekly homework activities give students the opportunity to explore how their well-being can be integrated into their daily lives. The included pull-out guide provides parents with all the information they need to actively support their child throughout the program.
