Subject:	Thinking Skills

Key Selling Points:

- Easy to use student activities featuring graphic organisers and higher-level thinking questions
- Background information on the Olympics up to and including Beijing 2008
- Fully explores Australia's place in the Olympic Games past and present

Summary:

Discover the Olympics through inquiry-based learning! A spectrum of Olympic themes are explored including the Ancient Games, Australian athletes, hosting cities and fitness and the body. Each topic is investigated through a teacher page containing background information and an accompanying student activity sheet. These engaging activities are presented in the form of higher-level thinking questions, self-directed task cards, timelines and graphic organisers. The special feature Beijing 2008 contains up-to-date information and fun learning activities to celebrate the upcoming Games.
