Summary:

Lift Off to Learning brings together thinking skills, inquiry-based learning and the integration of information and computer technology (ICT) skills in a practical approach for teaching and learning. Computer literacy is a step towards information literacy, and *Lift Off to Learning* describes an inquiry-based approach to information literacy, using ICT skills and a wide range of thinking tools. The CD-ROM that accompanies this book features pro forma worksheets for the thinking tools used in the program, as well as completed worksheet examples and several real-life examples of student end products.

Key selling points:

- Co-authored by best selling author Michael Pohl
- Provides thinking strategies aimed at teachers for the classroom.
- Includes an interactive CD of thinking strategies.
- Provides a process for developing inquiry-based learning.
- Links information and communication technology to thinking skills.

Supporting resources:

- *Teaching Thinking Skills in the Primary Years (2525)*
- *Learning to Think Thinking to Learn (4552)*
- *Teaching Complex Thinking (6122)*
- *Infusing Thinking into the Middle Years (6212)*
