Summary

Australia and New Zealand are home to a unique array of incredible creatures. In this workbook, author Peter Clutterbuck shares his love of our local wildlife, introducing students in Years 2-3 to 30 amazing animals, from the familiar kangaroo and koala, to the unusual quoll and kakpo!

Throughout the book, students will engage with a wide variety of text genres, including emails, classroom notes, fictional narratives and journal entries. Tasks focus on encouraging students to draw out the full meaning of each text through a mixture of literal and inferential comprehension questions and activities.
