## Summary:

These humorous educational images have been specially created to complement “Green Light Teaching” – teaching with an emphasis on laughter and excitement, involving both teachers and students in a fun, learning environment incorporating emotion, drama, art and music in the classroom. Students are encouraged to discover things themselves, and expand their creativity and imagination – these posters help them remember information, not just know it, and are a valuable pictorial and humorous strategy to assist memory retention. This digital image CD gives you over 130 high-quality images from the six different poster sets, plus five bonus images – use them for classes, lectures, seminars and staffrooms – these cartoon-styled drawings will bring a smile to the face of all who view them!
