## Summary:

Building Learning Power in Action explains the four main elements of Building Learning Power – Resilience, Resourcefulness, Reflectiveness and Reciprocity, and shows how some schools have embraced BLP and captures the exciting effects it is having in classrooms. It describes a range of case studies where busy teachers have tried out some aspects of BLP, and been pleasantly surprised by the results. The book expands on the number of learning behaviours that comprise the four major elements, or “Learning-power Muscles” of BLP, and details how they can be individually trained, nurtured and exercised.
