Key Selling Points:

- Colourful, informative addition to any learning environment
- Encourage your students to contemplate how they learn
- Give your class the skills they need to study more effectively

Summary:

Encourage your students to think about and hone their study skills with this set of nine posters. Each colourful poster gives your students important knowledge about how they can best utilise their brains for maximum learning outcomes.

Topics covered include: Why it's important to take it slow; Breaking down information into manageable chunks; The importance of taking breaks; Looking at analogies to benefit learning; Hooking new information into what is already known; and more!
