

Poster set: sciencethink (senior)

Authors: Lane Clark

Date Available: 17 April 2009

Code: HBP231

RRP: \$65.00

Format: Poster, booklet, student sheet, criteria and planner.

Age Range: P-12

Category: Professional Development

Subject: Thinking and Learning

Summary:

If learners are provided with a diversity of thinking processes, outside of their usual subject disciplines, and these processes are introduced in relation to their associated learning jobs, cross-curricular thinking skills will be further promoted. Learners will then be empowered to select the right process, at the right time, to achieve. The Lane Clark thinktank learning process poster series is comprised of frameworks designed to facilitate this. Sciencethink is a framework for quality investigations, from formulation of hypothesis to evaluation of results. This set includes sciencethink poster, Processes for Thinking and Learning booklet, complete student sheet, planner and detailed criteria.
