**RRP:** \$39.95  
**Format:** Poster  
**Age Range:** P-12, Professional Development  
**Category:** **Poster**  
**Subject:** ICT (Information Technology)

## Summary:

This large, easy to read poster is the perfect reference guide to the National Educational Technology Standards for Students (NETS.S) and their performance indicators, from the International Society for Technology in Education (ISTE). The technology standards for students are divided into broad, colour coded categories: Creativity and Innovation; Communication and Collaboration; Research and Information Fluency; Critical Thinking, Problem Solving and Decision Making; Digital Citizenship; and Technology Operations and Concepts. A brief standard statement follows each category, outlining its scope and relevance. The four performance indicators (a-d) for each standard provide specific outcomes to be measured by students and other educators.
