

Dr Birdley Teaches Science: Forces and Motion

Author(s): Nevin Katz

Date Available:	March 2018
ISBN:	978 1 76056 231 1
Code/SKU:	INA2311
RRP:	\$19.95
Format/Page No.:	A4, 100 pages
Year Level:	9–12, Teachers and Administrators
Focus Area:	Activities and Exercises, Classroom Practice and Direct Instruction, Curriculum
Key Learning Area:	Science

Summary

Forces and Motion, a Dr Birdley Teaches Science book, explains critical concepts in science using words, images and characters. It is focused on standards-based learning objectives and makes science accessible to all learners. It exemplifies good science teaching. Following the outline provided, teachers help students

1. warm up by assessing prior knowledge and developing vocabulary with vocabulary build-up exercises
2. learn about a new concept with the source cartoon. It explains critical concepts in science using words, images and characters
3. apply the new concepts in independent practice with
 - hands-on activities
 - study questions that prompt students to explain the concepts in words
 - puzzles and practice problems that link visual and verbal information
 - background articles that expand on the cartoon's central points
 - graphic organisers that help students sort and synthesise main ideas.
4. assess new learning with quizzes and tests that check for understanding of key ideas.

Concepts covered in this book include:

- Calculating Speed
- Calculating Velocity
- Newton's Law of Universal Gravitation
- Understanding Acceleration
- Newton's Laws of Motion
- Calculating Force and Mass
- Law of Inertia
