Code/SKU:	INA2427
RRP:	\$35.95
Year Level:	Year 5, Year 6, Year 7, Year 8
Focus Area:	Activities and Exercises
Key Learning Area:	Maths
Supplemental Resource:	Download reproducible resources at go.hbe.com.au

Summary

“I have 360, Where is 80×7 ?” “My number is 68 603 510. Give Me Half!” “My Answer is 28. Who has the Problem?”

Zip-Around Maths Games are an exciting way to engage your middle years class in learning and applying mathematical concepts. Students will love the eight fast-paced games as they sharpen their skills in multiplication and division, work with fractions, solve worded problems and more! Games take only minutes to get going, making them ideal for use at any point during a lesson.

An accompanying booklet contains game instructions and answer keys, as well as additional reproducible resources for introducing and reinforcing each activity.

Each *Zip-Around Maths Games* set, includes:

- *Multiplication Warm Up* – Practise multiplying by powers of ten.
- *The Language of Multiplication* – Applying the vocabulary of multiplication.
- *Who has the Problem?* – Identify the problem by matching it with a given answer.
- *Division Warm-up* – Mental division, dividing by powers of ten.
- *Give Me Half!* – Practise estimation and reading large numbers up to the trillions.
- *Divide and Conquer* – Mental division computation
- *Here's One for You* – Solve worded problems with multiplication and division
- *Just a Fraction* – Multiplying and dividing fractions
