Format/Page No.: B5, 122 pages
Year Level: Teachers and Administrators,
Foundation Year, Year 1,
Year 2
Focus Area: Curriculum, Classroom
Practice and Direct Instruction
Key Learning Area: Technologies

Summary

Have you ever wished you had an instructional coach at your side to help align your curriculum with the tech-related indicators found in the Common Core State Standards (CCSS)? You're not alone. Nearly all U.S. states have adopted the Common Core, and teachers across the country are redesigning their lessons to meet the standards, including the ed tech component.

In this book (the first of a four-book set), you'll learn how to shift your instructional practice and integrate technology standards found with the Common Core in elementary curriculum. The authors clearly explain the standards and demonstrate how to incorporate them through classroom-tested lesson examples that harness a robust list of student-friendly software, web-sites, and apps.
