

Spreadsheet Magic, Second Edition + CD

Authors: Pamela Lewis

Date Available: 20 August 2010
ISBN: 978 1 74239 395 7
Code: IST3957
RRP: \$55.95
Format: A4, 202 pages + CD-ROM
Age Range: Primary School, P-6
Category: ICT Resources
Subject: Office

Summary:

Dozens of new lessons and activities enrich the second edition of this popular favourite, proof of how flexible and effective a teaching tool the humble spreadsheet can be. Spreadsheets are ubiquitous in the higher year levels and the professional world, but they're also a great way for younger kids to learn basic maths, science and English concepts. This updated bestseller includes everything you'll need to incorporate Microsoft Excel spreadsheets in P-6 classrooms: an introduction to the software's basic functions and capabilities, step-by-step activity descriptions keyed to the NETS•S and example content area standards, teaching tips and extension ideas for promoting higher-order thinking skills, and a Macintosh and Windows compatible CD-ROM with a complete set of modifiable lesson templates and samples.
